MONTHLY BULLETIN.

VOL. 1, NO. 1, JANUARY, 1910.

From 1894 to 1909 the list of accessions to the Library was issued quarterly in the regular series of Bulletins of the Library. A complete list of the publications of the Library is given at the end of this Bulletin.

The number immediately following an entry is the call number assigned to the book by this Library.

The number in small type at the right-hand margin is that which should be used in ordering printed cards from the Library of Congress. Correspondence in regard to these cards should be addressed to the Librarian of Congress, Washington, D. C.

PRINTED CARDS.

Printed cards for publications of the United States Department of Agriculture are prepared by the Library of the Department and formerly were also printed and distributed by this Library. Since 1906 the printing and distribution has been in the hands of the Library of Congress, which has also reprinted the cards issued by the Department of Agriculture previous to that date. Cards are therefore now in stock at the Library of Congress for all publications of the Department for which cards have ever been issued. For full information in regard to these cards see Bulletin 14 of the Card Section of the Library of Congress. Printed cards for most of the accessions to the Library, except serials, may be obtained from the Library of Congress. (See note on page 3.)

Index cards are prepared by this Library and printed by the Library of Congress for the following agricultural periodicals: *Landwirtschaftliche Jahrbücher*, *Die landwirtschaftlichen Versuchsstationen*, and *Annales de la science agronomique*. For full information see Bulletin 9 of the Card Section of the Library of Congress.

MONTHLY BULLETIN

VOL. 1, NO. 2, FEBRUARY, 1910.

From 1894 to 1909 the list of accessions to the Library was issued quarterly in the regular series of Bulletins of the Library. A complete list of the publications of the Library is given at the end of this Bulletin.

The number immediately following an entry is the call number assigned to the book by this Library.

The number in small type at the right-hand margin is that which should be used in ordering printed cards from the Library of Congress. Correspondence in regard to these cards should be addressed to the Librarian of Congress, Washington, D. C.

PRINTED CARDS.

Printed cards for publications of the United States Department of Agriculture are prepared by the Library of the Department and formerly were also printed and distributed by this Library. Since 1906 the printing and distribution has been in the hands of the Library of Congress, which has also reprinted the cards issued by the Department of Agriculture previous to that date. Cards are therefore now in stock at the Library of Congress for all publications of the Department for which cards have ever been issued. For full information in regard to these cards see Bulletin 14 of the Card Section of the Library of Congress.

Printed cards for most of the accessions to the Library, except serials, may be obtained from the Library of Congress. (See note on page 27.)

Index cards are prepared by this Library and printed by the Library of Congress for the following agricultural periodicals: *Landwirtschaftliche Jahrbücher*, *Die landwirtschaftlichen versuchsstationen*, and *Annales de la science agronomique*. For full information see Bulletin 9 of the Card Section of the Library of Congress.

PRINTED CARDS.

Printed cards for publications of the United States Department of Agriculture are prepared by the Library of the Department and formerly were also printed and distributed by this Library. Since 1906 the printing and distribution has been in the hands of the Library of Congress, which has also reprinted the cards issued by the Department of Agriculture previous to that date. Cards are therefore now in stock at the Library of Congress for all publications of the Department for which cards have ever been issued. For full information in regard to these cards see Bulletin 14 of the Card Section of the Library of Congress. Printed cards for most of the accessions to the Library, except serials, may be obtained from the Library of Congress. (See note on page 51.)

Index cards are prepared by this Library and printed by the Library of Congress for the following agricultural periodicals: *Landwirtschaftliche Jahrbücher*, *Die landwirtschaftlichen Versuchsstationen*, and *Annales de la science agronomique*. For full information see Bulletin 9 of the Card Section of the Library of Congress.

MONTHLY BULLETIN.

VOL. 1, NO. 4, APRIL, 1910.

From 1894 to 1909 the list of accessions to the Library was issued quarterly in the regular series of Bulletins of the Library. A complete list of the publications of the Library is given at the end of this Bulletin.

NOTES.

The annual meeting of the American Library Association is to be held at Mackinac Island, Michigan, from June 30 to July 6, inclusive. In connection with this meeting there is to be a Round Table meeting for the discussion of problems of interest to agricultural libraries and libraries having agricultural collections. It is hoped that many librarians of agricultural libraries will attend the meeting and take part in the discussions. The object of the meeting is to bring about closer cooperation among agricultural libraries, to further their advancement, and to stimulate interest in agricultural literature. The tentative program is given below.

TENTATIVE PROGRAM, AGRICULTURAL LIBRARIES ROUND TABLE MEETING.

PRINTED CARDS.

Printed cards for publications of the United States Department of Agriculture are prepared by the Library of the Department and formerly were also printed and distributed by this Library. Since 1906 the printing and distribution has been in the hands of the Library of Congress, which has also reprinted the cards issued by the Department of Agriculture previous to that date. Cards are therefore now in stock at the Library of Congress for all publications of the Department for which cards have ever been issued. For full information in regard to these cards see Bulletin 14 of the Card Section of the Library of Congress. Printed cards for most of the accessions to the Library, except serials, may be obtained from the Library of Congress. (See note on page 78.)

Index cards are prepared by this Library and printed by the Library of Congress for the following agricultural periodicals: *Landwirtschaftliche Jahrbücher*, *Die landwirtschaftlichen versuchsstationen*, and *Annales de la science agronomique*. For full information see Bulletin 9 of the Card Section of the Library of Congress.

PRINTED CARDS.

Printed cards for publications of the United States Department of Agriculture are prepared by the Library of the Department and formerly were also printed and distributed by this Library. Since 1906 the printing and distribution has been in the hands of the Library of Congress, which has also reprinted the cards issued by the Department of Agriculture previous to that date. Cards are therefore now in stock at the Library of Congress for all publications of the Department for which cards have ever been issued. For full information in regard to these cards see Bulletin 14 of the Card Section of the Library of Congress.

Printed cards for most of the accessions to the Library, except serials, may be obtained from the Library of Congress. (See note on page 105.)

Index cards are prepared by this Library and printed by the Library of Congress for the following agricultural periodicals: *Landwirtschaftliche Jahrbücher*, *Die landwirtschaftlichen Versuchsstationen*, and *Annales de la science agronomique*. For full information see Bulletin 9 of the Card Section of the Library of Congress.

PRINTED CARDS.

Printed cards for publications of the United States Department of Agriculture are prepared by the Library of the Department and formerly were also printed and distributed by this Library. Since 1906 the printing and distribution has been in the hands of the Library of Congress, which has also reprinted the cards issued by the Department of Agriculture previous to that date. Cards are therefore now in stock at the Library of Congress for all publications of the Department for which cards have ever been issued. For full information in regard to these cards see Bulletin 14 of the Card Section of the Library of Congress. Printed cards for most of the accessions to the Library, except serials, may be obtained from the Library of Congress. (See note on page 141.)

Index cards are prepared by this Library and printed by the Library of Congress for the following agricultural periodicals: *Landwirtschaftliche Jahrbücher*, *Die landwirtschaftlichen Versuchsstationen*, and *Annales de la science agronomique*. For full information see Bulletin 9 of the Card Section of the Library of Congress.

MONTHLY BULLETIN.

VOL. 1, NO. 7, JULY, 1910.

From 1894 to 1909 the list of accessions to the Library was issued quarterly in the regular series of Bulletins of the Library. A complete list of the publications of the Library is given at the end of this Bulletin.

NOTES.

The annual conference of the American Library Association was held at Mackinac Island June 30 to July 7, 1910.

The two sessions of the Agricultural Libraries Round Table, held in connection with the meeting, represented the first attempt to bring together librarians of agricultural libraries and those interested in agricultural literature for the discussion of their special problems. The meetings were well attended, and the papers and discussions were interesting and helpful. The papers presented are to be published in the Proceedings of the American Library Association. At the close of the meeting it was voted that the officers of the American Library Association be communicated with in regard to forming a permanent Agricultural Libraries Section. It is hoped that such a section will be formed and that it will be productive of good results.

The League of Library Commissions, which held its seventh annual meeting in connection with the American Library Association conference at Mackinac, devoted one session to the general subject of commission work with the farmer. The following papers were presented: "The farmer, his book and his heart," by Miss Frances Hobart, Vermont; "Possibilities of direct service to individual farmers, including the location of traveling libraries through granges, agricultural societies, farmers' clubs, rural schools, etc.," by Miss Charlotte Templeton, Nebraska; "Cooperation on the part of the commissions with public libraries in their efforts to reach the farmer," by Mr. Carl H. Milam, Indiana.

PRINTED CARDS.

Printed cards for publications of the United States Department of Agriculture are prepared by the Library of the Department and formerly were also printed and distributed by this Library. Since 1906 the printing and distribution has been in the hands of the Library of Congress, which has also reprinted the cards issued by the Department of Agriculture previous to that date. Cards are therefore now in stock at the Library of Congress for all publications of the Department for which cards have ever been issued. For full information in regard to these cards see Bulletin 14 of the Card Section of the Library of Congress.

Printed cards for most of the accessions to the Library, except serials, may be obtained from the Library of Congress. (See note on page 171.)

Index cards are prepared by this Library and printed by the Library of Congress for the following agricultural periodicals: *Landwirtschaftliche Jahrbücher*, *Die landwirtschaftlichen Versuchsstationen*, and *Annales de la science agronomique*. For full information see Bulletin 9 of the Card Section of the Library of Congress.

PRINTED CARDS.

Printed cards for publications of the United States Department of Agriculture are prepared by the Library of the Department and formerly were also printed and distributed by this Library. Since 1906 the printing and distribution has been in the hands of the Library of Congress, which has also reprinted the cards issued by the Department of Agriculture previous to that date. Cards are therefore now in stock at the Library of Congress for all publications of the Department for which cards have ever been issued. For full information in regard to these cards see Bulletin 14 of the Card Section of the Library of Congress.

Printed cards for most of the accessions to the Library, except serials, may be obtained from the Library of Congress. (See note on p. 201.)

Index cards are prepared by this Library and printed by the Library of Congress for the following agricultural periodicals: *Landwirtschaftliche Jahrbücher*, *Die landwirtschaftlichen Versuchsanstalten*, and *Annales de la science agronomique*. For full information see Bulletin 9 of the Card Section of the Library of Congress.

PRINTED CARDS.

Printed cards for publications of the United States Department of Agriculture are prepared by the Library of the Department and formerly were also printed and distributed by this Library. Since 1906 the printing and distribution has been in the hands of the Library of Congress, which has also reprinted the cards issued by the Department of Agriculture previous to that date. Cards are therefore now in stock at the Library of Congress for all publications of the Department for which cards have ever been issued. For full information in regard to these cards see Bulletin 14 of the Card Section of the Library of Congress.

Printed cards for most of the accessions to the Library, except serials, may be obtained from the Library of Congress. (See note on page 233.)

Index cards are prepared by this Library and printed by the Library of Congress for the following agricultural periodicals: *Landwirtschaftliche Jahrbücher*, *Die landwirtschaftlichen Versuchstationen*, and *Annales de la science agronomique*. For full information see Bulletin 9 of the Card Section of the Library of Congress.

MONTHLY BULLETIN.

VOL. 1, NO. 10, OCTOBER, 1910.

From 1894 to 1909 the list of accessions to the Library was issued quarterly in the regular series of Bulletins of the Library. A complete list of the publications of the Library is given at the end of this Bulletin.

U. S. DEPARTMENT OF AGRICULTURE LIBRARY. RULES FOR INTER-LIBRARY LOANS.

Attention is called to the following rules of this library in regard to inter-library loans. A strict observance of these rules on the part of librarians and scientists and a critical elimination of all unimportant and unnecessary requests will greatly facilitate the work and lessen the expense and risk involved in such loans.

1. Books are lent to other libraries for the use of investigators engaged in serious research, in cases where such lending will not interfere with the work of the Department. The material lent can not include books in frequent use in the Department; books that should be in the local library; text-books or popular manuals; nor books for use in ordinary student or thesis work.

2. Unless otherwise specified, books are lent for one month, including time en route.

3. The borrower is responsible for the safe return of the books and is expected to make good any losses or injuries which may occur. Books must be carefully wrapped when returned so that there will be no danger of injury to book or binding.

4. Cost of carriage must be borne by the borrower. Books will be forwarded by express (charges collect) whenever it is deemed necessary on account of their size or value. Certain books, however, may be sent by registered mail if the cost of postage and registration be remitted in advance. In the case of books lent for use in the official work of the state agricultural colleges and experiment stations, those which it is considered safe to send by mail will be forwarded under the Department frank, and a frank will be sent for their return. The cost of registration for the return of the book must, however, be paid by the borrower.

5. It is preferred that requests from agricultural colleges and experiment stations be made through the college or station library, if the library is so organized as to be able to attend to such loans.

6. Borrowers are urged to give as full a reference as possible when requesting loans, including author, title and page of articles in periodicals. This is desirable for the following reasons: The article can sometimes be supplied in separate form; the volume of the periodical may be unbound, in which case only a single number need be sent; references are sometimes incorrect, and information as to the author and title of the article may prevent the sending of the wrong volume; if the article is short and the volume large, it may be more economical to have the article copied.

NOTES.

The following articles which have recently appeared will be of interest to those connected with agricultural libraries: The agricultural library. (Experiment station record, v. 23, no. 6, Nov. 1910, p. 501-504); Hepburn, W. M. Selection and preservation of agricultural periodicals. (Library journal, v. 35, no. 7, July 1910, p. 309-311); White, Charles H. Literature of agriculture. (Library journal, v. 35, no. 8, Aug. 1910, p. 359-362.)

ACCESSIONS, OCTOBER, 1910.

PRINTED CARDS.

Printed cards for publications of the United States Department of Agriculture are prepared by the Library of the Department and formerly were also printed and distributed by this Library. Since 1906 the printing and distribution has been in the hands of the Library of Congress, which has also reprinted the cards issued by the Department of Agriculture previous to that date. Cards are therefore now in stock at the Library of Congress for all publications of the Department for which cards have ever been issued. For full information in regard to these cards see Bulletin 14 of the Card Section of the Library of Congress.

Printed cards for most of the accessions to the Library, except serials, may be obtained from the Library of Congress. (See note on page 262.)

Index cards are prepared by this Library and printed by the Library of Congress for the following agricultural periodicals: *Landwirtschaftliche Jahrbücher*, *Die landwirtschaftlichen versuchsstationen*, and *Annales de la science agronomique*. For full information see Bulletin 9 of the Card Section of the Library of Congress.

MONTHLY BULLETIN.

VOL. 1, NO. 11, NOVEMBER, 1910.

From 1894 to 1909 the list of accessions to the Library was issued quarterly in the regular series of Bulletins of the Library. A complete list of the publications of the Library is given at the end of this Bulletin.

NOTES.

Among the more valuable purchases of the month the following large illustrated botanical works are worthy of special mention: Roxburgh's *Plants of the coast of Coromandel* (see p. 310), and Mrs. Bury's *Selection of hexandrian plants* (see p. 308). The Library of Congress has a copy of the former and has been very generous in lending it to the Department, but on account of its frequent use it has seemed advisable for this Library to acquire a copy of the work.

Attention is also called to the fact that the Library has succeeded in completing its set of the important and much-used periodical, *Annales de chimie et de physique* (see p. 304).

The most important gift of the month was a set of the *Annals of the Royal botanic garden, Calcutta* (see p. 308), which is probably the costliest and most beautiful publication issued by any botanical institution. The Royal botanic garden presented the set to the Library in exchange for publications of the Department.

In accordance with the policy of cooperation among the various governmental libraries, the Library of the U. S. Geological survey has recently transferred to this Library several valuable publications which are more closely related to the work of this Department than to that of the Geological survey. Three of these are noted in the present bulletin: *Mémoires de la Société académique d'agriculture, des sciences, arts et belles-lettres du département de l'Aube* (see p. 315); *Kärntner gartenbau-zeitung* (see p. 301); *Bulletin de la Fédération des sociétés d'horticulture de Belgique* (see p. 300). The Library previously had some of the earlier volumes of the last-named publication, but still lacks several years. The three years just acquired from the Geological survey are evidently somewhat rare, as the "Catalogue of books . . . in the British museum (Natural history)" says that the "Bulletin for the years 1879, 1881, and 1882 do not appear to have been issued."

ACCESSIONS, NOVEMBER, 1910.

The number immediately following an entry is the call number assigned to the book by this Library.

The number in small type at the right-hand margin is that which should be used in ordering printed cards from the Library of Congress. Correspondence in regard to these cards should be addressed to the Librarian of Congress, Washington, D. C.

PRINTED CARDS.

Printed cards for publications of the United States Department of Agriculture are prepared by the Library of the Department and formerly were also printed and distributed by this Library. Since 1906 the printing and distribution has been in the hands of the Library of Congress, which has also reprinted the cards issued by the Department of Agriculture previous to that date. Cards are therefore now in stock at the Library of Congress for all publications of the Department for which cards have ever been issued. For full information in regard to these cards see Bulletin 14 of the Card Section of the Library of Congress.

Printed cards for most of the accessions to the Library, except serials, may be obtained from the Library of Congress. (See note on page 297.)

Index cards are prepared by this Library and printed by the Library of Congress for the following agricultural periodicals: *Landwirtschaftliche jahrbücher*, *Die landwirtschaftlichen versuchsstationen*, and *Annales de la science agronomique*. For full information see Bulletin 9 of the Card Section of the Library of Congress.

MONTHLY BULLETIN.

VOL. 1, NO. 12, DECEMBER, 1910.

From 1894 to 1909 the list of accessions to the Library was issued quarterly in the regular series of Bulletins of the Library. A complete list of the publications of the Library is given at the end of this Bulletin.

NOTES.

An addition to the Library, during the past month, which is worthy of special notice, is a volume containing several old English agricultural works, published about 1623, each of which is separately entered in this bulletin. The works are: Markham's Farwell to husbandry (p. 320); Markham. Cheape and good husbandry (p. 327); Markham. Country contentments (p. 329); Markham. The country house-wifes garden (p. 325); Lawson. A new orchard and garden (p. 325); Harward. A most profitable new treatise, from approved experience of the art of propagating plants (p. 324); Butler. The feminine monarchie (p. 334); The husbandmans fruitful orchard (p. 324).

Attention is also called to the following indexes to important periodicals: Jahresbericht über die fortschritte der chemie. General-register . . . 1897-1904. 1. teil (p. 329); Annalen der physik. Register (1894-1909) (p. 328).

ACCESSIONS, DECEMBER, 1910.

The number immediately following an entry is the call number assigned to the book by this Library.

The number in small type at the right-hand margin is that which should be used in ordering printed cards from the Library of Congress. Correspondence in regard to these cards should be addressed to the Librarian of Congress, Washington, D. C.

PRINTED CARDS.

Printed cards for publications of the United States Department of Agriculture are prepared by the Library of the Department and formerly were also printed and distributed by this Library. Since 1906 the printing and distribution has been in the hands of the Library of Congress, which has also reprinted the cards issued by the Department of Agriculture previous to that date. Cards are therefore now in stock at the Library of Congress for all publications of the Department for which cards have ever been issued. For full information in regard to these cards see Bulletin 14 of the Card Section of the Library of Congress.

Printed cards for most of the accessions to the Library, except serials, may be obtained from the Library of Congress. (See note on page 319.)

Index cards are prepared by this Library and printed by the Library of Congress for the following agricultural periodicals: *Landwirtschaftliche jahrbücher*, *Die landwirtschaftlichen versuchsstationen*, and *Annales de la science agronomique*. For full information see Bulletin 9 of the Card Section of the Library of Congress.

A title-page and index for volume 1 of this bulletin will be issued later.
